

# CK77

## - CORK PRODUCT -

### ◆ SPECIFICATION ◆

|                                 |                                |
|---------------------------------|--------------------------------|
| MINERAL                         | Silicon carbide<br>and<br>Cork |
| BASE<br>MATERIAL                | Cloth<br>(Xwt)                 |
| APPRICABLE<br>PRODUCT<br>SHAPES | Roll<br>Belt                   |

### ◆ PRODUCT LIST ◆

| TYPE | GRIT |      |      |
|------|------|------|------|
|      | #320 | #400 | #600 |
| CK77 | ●    | ●    | ●    |

### ◆ FEATURES ◆

- The cork cloth base material is coated with abrasive particles, allowing the cushioning properties of the cork to be utilized.
- It also maintains a fine and stable polishing surface throughout its entire life.

### ◆ USAGE AND APPLICATION ◆

- Most suitable for the finishing process of all metal materials, including stainless steel, carbon steel, aluminum alloy and copper plate.
- Can be used for both water and dry grinding.
