### ◆ FEATURES ◆

\*Please note that the color display may differ slightly from the actual product.

- The structure of long fibers folded into 4 layers makes the fibers uniformly dense and durable.
- The combination of urethane resin and the spray application of abrasive materials enables the even application of abrasive materials to fibers, resulting in high sharpness during polishing and extended lifespan.
- Additionally, the polished surface is smooth and aesthetically pleasing.

### ◆ USAGE AND APPLICATION ◆

- It is effective for removing rust, scratches, burrs, and stains from stainless sinks, applying feet before painting and grinding curved surfaces of wood.
- Can be used for both water and dry grinding.
